

# Kawasaki KX 500-E5 1993

A description of a restoration

Benny Lindberg

---

## 2. Technical overview of the object

To make it easy, I started an inspection of every part, starting from the rear. These are the notes I made during the disassembly and rebuild.

- Rear tire                      junk, replace
- Rear rim                      restorable, scrubbing, welded a crack, polishing and polishing...
- Rear spokes                  junk, replace
- Rear wheel bearings        unsure, replace
- Rear wheel seals            ok
- Rear hub                      restorable, sandblasted coated with Car rim paint, very strong glass like
